

Features

- Compliance with CEE17 Standards: The CEE form series adheres to the CEE17 standards for industrial plugs and sockets, ensuring reliability and performance across various applications.
- Tailored for the Entertainment Industry: The Black & Blue (B&B) series stands out with its distinctive 250V rating and matt black finish, while the All-Black series offers a fully inconspicuous design. Both series are engineered to minimize reflections, ensuring they blend seamlessly into the background during event productions
- Wide Voltage and Ampere Range: These connectors support a versatile range from 16 to 125 Amp and voltage ratings from 110 to 400 volts, with CE approval and IP44/IP67 ratings for safety in different environments.

Product Information

Item: KHTN223
 Amperage Rating: 32A Maximum
 Voltage Rating: AC 220~250V Maximum
 Pole: 3 (2P+E)
 Earth Contact Position (Key): 6h
 Suitable Cable Size: 2.5-6.0 mmsq

Listings & CE Compliance

Low Voltage Directive 2014/35/EU
 IEC/EN 60309-1: 1999 +A1:2007 +A2:2012
 IEC/EN 60309-2: 1999 +A1:2007 +A2:2012
 RoHS Directive 2011/65/EU and (EU)2015/863 of the European
 EU REACH Regulation No 1907/2006 Article 33(1) Obligation

Material Information

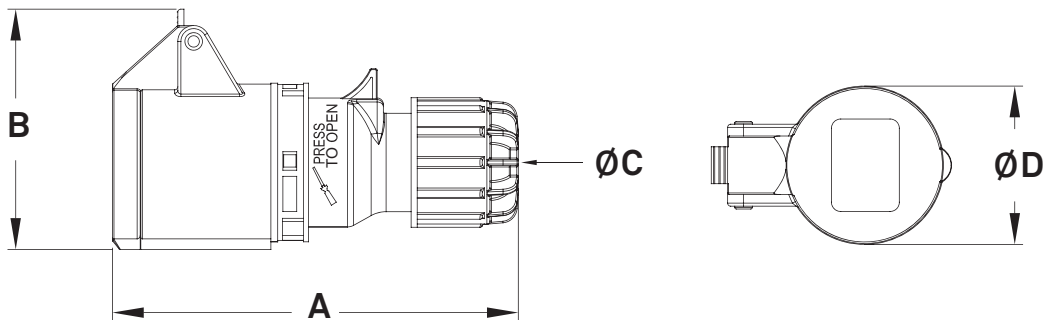

Housing Material: Flame Retardant PA6 Nylon
 Housing Color: Blue & Gray
 Contact Material: Brass with Nickle plated

Environmental Information

IP Rating: IP44
 Operation Temperature: -25 ~ 40 Celsius degree
